HOMELAND SECURITY FREEDOMPRO TRAINING PORTAL SOFTWARE

LIST PRICE: \$189,000.00

GSA PRICE: \$98,000.00

INCLUDES:

- One Software License with up to 10 administrative user accounts
- Up to 10,000 student/responder accounts
- Registration of two custom domain names (.com/.org URLs)
- One custom header/footer graphic and color scheme
- One custom registration form
- Configuration and deployment
- Software testing
- 10 copies of Administrator User Guide
- One on-site administrator training session

DESCRIPTION:

The Training Portal Software was developed by the Texas Engineering Extension Service (TEEX) to assist with tracking and reporting on homeland security related training available for first responders. The system is already in use within the state of Texas, and is now being offered to other states, agencies, and organizations.

Because the system was developed with a homeland security preparedness office in mind, it contains a number of features that address the specific needs of this community. The system provides course calendars and descriptions, online registration forms and downloads, and an online transcript for first responders, elected officials, emergency managers, and other citizens to track their training records and certificates. It provides those interested in homeland security training opportunities with a one-stop-shop for reviewing different providers' catalogues and schedules and makes completing registration forms quick and easy.

For the system administrators, a wealth of admin tools facilitate the updating of the course catalog and descriptions, reviewing registration requests, approving user accounts and training requests, scheduling and publicizing events, and coordinating with local POCs and training coordinators. In addition, an ad-hoc reporting tool provides training-related statistics and student details, that can be filtered by discipline, region, course or date; each class listing also provides downloadable student rosters and contact information sheets.

This system was developed using the Microsoft .Net framework, with a SQL 2008 database back end. It will be hosted and maintained within the TEEX web server farm. In addition to development cost savings, on-going IT expenses will also be reduced, since no additional equipment or technical personnel are required.

TEEX DIVISIONS

.....

FIRE SERVICES (EMERGENCY SERVICES TRAINING INSTITUTE)

.....

TEEX's Emergency Services Training Institute (ESTI) is known worldwide for its outstanding, hands-on training of emergency response personnel in municipal firefighting and rescue, industrial and marine firefighting, aircraft rescue and firefighting, hazardous materials, emergency medical services, and emergency management, as well as maritime safety training. Classes can be offered at a customer's location or at the renowned Brayton Fire Training Field, the largest live-fueled fire training facility in the world.

HOMELAND SECURITY SERVICES

.....

National Emergency Response and Rescue Training Center (NERRTC) was established at TEEX in 1998 and funded by the U.S. Congress to improve the capabilities of emergency responders and local officials to respond to acts of terrorism, including those involving weapons of mass destruction (WMD). NERRTC is a member of the National Domestic Preparedness Consortium.

PUBLIC WORKS (INFRASTRUCTURE TRAINING & SAFETY INSTITUTE)

.....

TEEX's Infrastructure Training & Safety Institute offers highly diverse training programs that serve and reach nearly all of the skill groups and departments found in local government, as well as state and federal government. Training is offered in construction, electric power, public works, transportation, water and wastewater, telecommunications, heavy equipment, building codes and other occupational areas. The division coordinates the Public Works Response Team and is home to the Frank M. Tejada Center for Excellence in Environmental Operations.

OSHA TRAINING INSTITUTE SOUTHWEST EDUCATION CENTER

.....

Part of TEEX's Infrastructure Training & Safety Institute (ITSI), works with individuals and companies to maintain voluntary compliance with OSHA regulations to ensure workplace safety and health. Covering the five states of OSHA Region VI, the Southwest Education Center offers a wide variety of training programs, including the TEEX Certified Safety and Health Official Program as well as other professional and regulatory training courses.

PUBLIC SAFETY AND SECURITY

.....

is one of the primary trainers for law enforcement officers within Texas and is the state's oldest continuing statewide law enforcement extension training agency. TEEX sponsors the Central Texas Police Academy and offers a wide variety of basic and advanced training to peace officers and private industry security professionals.

KNOWLEDGE ENGINEERING

.....

provides expertise in technology commercialization, manufacturing and small business growth, economic development, technology assessment, community development, semiconductor training and professional development, and can assist organizations with Web applications, instructional design and E-learning.

DISASTER PREPAREDNESS AND RESPONSE

.....

offers customized training to groups of emergency responders from across the nation and the world. The division offers all-hazards planning, training and exercises for jurisdictions, regions and states. Specialized training offered includes structural collapse technician, logistics specialist, search operations, swift water rescue and other position-specific training at the most comprehensive emergency response training facility in the world – Disaster City®. The full-scale, collapsible structures in Disaster City® can be customized to meet the needs of any group. The division is also home to Texas Task Force 1 and the state water strike team.

SCHEDULE 84 LABOR CATEGORY DESCRIPTIONS

.....

The Project Manager will be responsible for planning and managing activities of designated projects. The Project Manager will plan and analyze assigned projects, establish schedules and project parameters, and set procedures to accomplish objectives. He/she will ensure project goals and objectives are accomplished within prescribed time frame and funding parameters. The Project Manager will evaluate complex problems and develop alternative strategies to enhance project completion. The Project Manager will also assign tasks and provide guidance to personnel involved in the project

Education and Experience: Bachelor's degree from an accredited university or college. Division may accept equivalent combination of training and experience. Four years project management experience and one year supervisory experience (if supervising).

Equivalency: 12 years project management experience with a high school diploma or GED, Eight years of experience with an associate's degree.

PROJECT SPECIALIST

The Project Specialist will participate in the development, planning, and implementation of a specialized project within a larger program. The Project Specialist will maintain records, reports, and documentation to use in project evaluation. He/she will develop and implement project goals and objectives. The Project Specialists will serve as the liaison to entities associated with the project. The Project Specialist will also ensure timely and successful delivery of the project.

Education and Experience: Bachelor's degree from an accredited university or college. Division may accept equivalent combination of training and experience. One year experience in project management.

Equivalency: Nine years of project management experience with a high school diploma or GED; five years experience with an associate's degree.

PROJECT COORDINATOR

The Project Coordinator will be responsible for coordinating the details of multiple projects. Duties include the follow up on status, compiling data, developing budgets and preparing written reports. Collects and analyzes data and presents results to senior administrator.

Education and Experience: Bachelor's degree from an accredited university or college. Division may accept equivalent combination of training and experience. Three years experience in project management. Equivalency: Eleven years of experience in project management with a high school diploma or GED. Seven years of experience with an associate's degree.

PROJECT ADMINISTRATOR

The project administrator will provide administrative support for a specific and defined project or grant. Provides professional-level administrative support to staff responsible for administering or fulfilling the agreement and works closely with the provider to ensure metrics are provided accurately and timely.

Education and Experience: Bachelor's degree from an accredited university or college. Division may accept equivalent combination of training and experience. One year administrative experience.

Equivalency: Nine years of administrative experience with a high school diploma or GED. Five years of experience with an associate's degree.

SR. ADMINISTRATIVE COORDINATOR

The Senior Administrative Coordinator will coordinate administrative support for a specified division or specialized activity. The Senior Administrative Coordinator will analyze and develop administrative support operations, methods, and procedures to maintain the flow of work and desirable levels of productivity. He/she will serve as the primary information resource on office support methods and process. The Senior Administrative Coordinator will also supervise other office support staff.

Education and Experience: Bachelor's degree from an accredited university or college.

ADMINISTRATIVE COORDINATOR

The Administrative Coordinator will be responsible for the administrative planning and coordination of activities, programs, and special projects within the division. The Administration Coordinator will coordinate the workflow and monitor the status of special projects. He/she will serve as the primary information resource for internal and external clients. The Administrative Coordinator will also assist in establishing and maintaining goals and objectives for the division.

Education and Experience: Bachelor's degree from an accredited university or college.

OBSERVER/CONTROLLER (SUBJECT MATTER EXPERT)

The Observer/Controller (Subject Matter Expert) uses expertise gained through direct experience to assist in Exercise and scenario development/design. The OC will also assist with the preparation of After Action Reviews (AAR) and Reports, exercise scenario development, course development/revisions, and provide expertise in designated discipline.

Education and Experience: Bachelor's degree from an accredited university or college preferred, High School/GED required. Experience in any combination of the following: technical local, state, or federal emergency response discipline from law enforcement, fire, hazmat, EMS, health care and/or public health, public works, medical, military, emergency management, public information discipline, government administration, public safety communication.

TECHNICAL WRITER

The Technical Writer is responsible for developing writing, and editing material for a specific project. The Technical Writer works closely with subject matter experts, instructional design specialists, and graphic artists to gain an understanding of the project or procedure and to ensure consistency between all related documentation. He/she utilizes their professional-level formatting skills to reorganize and simplify complex documents for the target audience. The Technical Writer also assists in laying out material for publication.

Education and Experience: Bachelor's degree in technical writing, English, or a closely related field. One year technical writing or editing experience. (Experience may include college coursework).

GRAPHICS DESIGNER

The Graphics Designer will be responsible for conceptualizing and formulating the design and development of professional-level graphics. The Graphics designer will arrange graphics layouts based upon available space, knowledge of layout principles, and esthetic design concepts. The Graphics Designer will create illustrations, charts, and other graphics to meet agency needs.

Education and Experience: Bachelor's degree in closely related field and one year experience in graphic design.

SR. INSTRUCTIONAL DESIGN SPECIALIST

The Senior Instructional Design Specialist will be responsible for planning, managing, and monitoring numerous instructional design projects. The Senior Instructional Design Specialist will select, modify, or create a curriculum based on needs assessment. He/she will utilize their knowledge of adult learning theories, multiple learning styles, and instructional design principles to maximize learner success and ensure overall effectiveness of the training program. The Senior Instructional Design Specialist will also meet with subject matter experts and technical writers to establish training needs, prepare learning objectives, and define and sequence course content.

Education and Experience: Bachelor's degree from an accredited university or college. Three years experience in instructional / curriculum design. Prefer experience in adult education.

INSTRUCTIONAL DESIGN SPECIALIST

The Instructional Design Specialist will be responsible for designing and managing a training development process. The Instructional Design Specialist will work with subject matter experts and technical writers to establish training needs, prepare learning objectives, and define and sequence course content. He/she will utilize their knowledge of adult learning theories, multiple learning styles, and instructional design principles to maximize learner success and ensure overall effectiveness of the training program. The Instructional Design Specialist will also review and modify existing programs to meet changing needs and objectives.

Education and Experience: Bachelor's degree from an accredited university or college.

One year experience in instructional/curriculum design. Prefer experience in adult education.

TEEX FACILITIES COORDINATOR

The Facilities Coordinator will ensure the facility is maintained in a manner consistent with the need for successful support of facility employees, office tenants, visiting instructors and students. All efforts must be conducted in a manner that contributes to the positive image and reputation of the Agency. The Facilities Coordinator must have the ability to successfully coordinate requests for and support of classes and courses scheduled at the facility, resolve schedule classrooms and laboratories.

Education/Experience/Licenses (required): High School/GED / One year of successful supervisory and building management experience / Valid Driver's License.

Education and Experience: Bachelor's in Management or related field / Five years of successful supervisory and building management experience.

TEEX TRAINING COORDINATOR

The Training Coordinator is responsible for scheduling and coordinating training dates and matching appropriate instructors to scheduled classes. In addition, the training coordinator is responsible for logistics which may include ordering materials, shipping/or ensuring the shipping of training materials to class locations, locating places where classes can be held, shipping equipment.

Education and Experience: Bachelor's degree from an accredited university or college.

Division may accept equivalent combination of training and experience. Two years project management experience (logistics and planning).

Equivalency: 10 years of project management experience with a high school diploma or GED; six years project management experience with an associate's degree.

TEEX TRAINING SPECIALIST

The Training Specialist will be responsible for training various courses within a specified program. The Training Specialist will utilize his/her knowledge of adult learning theories and learning styles to maximize learner success and ensure overall effectiveness of the course instruction. He/she will use a variety of media to present course material. The Training Specialist will also modify course curriculum, when necessary, to meet learner needs.

Education and Experience: High School Diploma / GED or Bachelor's degree as determined by the division. 4 years as a TEEX Associate Training Specialist. Division Director may approve less years of experience with documentation stating the recommendation.

TEEX ASSOCIATE TRAINING SPECIALIST

The Associate Training Specialist will be responsible for training various courses within a specified program. The Associate Training Specialist will utilize his/her knowledge of adult learning theories and learning styles to maximize learner success and ensure overall effectiveness of the course instruction. He/she will use a variety of media to present course material. The Associate Training Specialist will also modify course curriculum, when necessary, to meet learner needs.

Education and Experience: High School Diploma / GED or Bachelor's Degree as determined by the division. 6 months as a TEEX Instructor.

TEEX INSTRUCTOR

The Instructor will be responsible for training various courses within a specified program. The Instructor will utilize his/her knowledge of adult learning theories and learning styles to maximize learner success and ensure overall effectiveness of the course instruction. He/she will use a variety of media to present course material. The Instructor will also modify course curriculum, when necessary, to meet learner needs.

Education and Experience: High School Diploma / GED or Bachelor's Degree as determined by the division. Must have experience (years specified by the division) related to discipline/area of expertise required. One year of experience in training adults.

TRAINING SUPPORT FOREMAN
